

BISCO® MF1® SILICONE

HIGH PERFORMANCE SILICONE FOAM FOR RAIL SEAT CUSHIONING

BISCO® MF1® seat cushion foam provides reliable comfort, longevity, and safety. Available in three firmness ranges, MF1 foam allows engineers to optimize seat designs, providing exceptional passenger comfort all the while reducing weight and size. MF1 foam is a durable seat cushion material that utilizes proprietary silicone technology to deliver a product which maintains firmness and thickness longer than traditional urethane foams. Additionally, all grades of MF1 foam are formulated to meet various global fire safety standards including BS 6853, EN 45545, DIN 5510, NFF 16-101, and NFPA 130.
